## INTRODUCTION

This report provides, for federal electoral districts (see definition below), a compendium of the most frequently used data from the 1976 Census. It is one of a series of similar presentations presented for varying geographic levels; census metropolitan areas and census agglomerations (Catalogue No. 92-809), municipalities 5,000 population and over (Catalogue No. 92-810), census tracts (Catalogue Nos. 95-800 to 95-831) and provincial census tracts (Catalogue Nos. 95-850, 852, 854 and 856).

The data cover demographic and economic (labour force) characteristics of individuals as well as characteristics of housing, households and families. They are presented for the 282 federal electoral districts, as established by the 1976 Representation Order according to the Electoral Boundaries Readjustment Act, RSC, 1970. Explanation of the variables used in this report are found below.

Population counts from the 1976 and 1971 Censuses are presented for the 264 federal electoral districts, as established by the 1966 Representation Order, in another bulletin (Catalogue No. 92-801).

Official names of federal electoral districts are subject to change, from time to time, by Parliament. Readers will note that in eight instances, names shown in the Index to Electoral Districts on the reference map do not coincide with the revised names shown in the tabular portion of this bulletin as they have been changed since this map was printed. The eight areas affected are:

| Province                                    | Formerly — Précédemment       | Now — Maintenant                      |
|---|-------------------------------|---------------------------------------|
| 10. Newfoundland — Terre-Neuve              | 005 Humber — St. Barbe        | 005 Humber — Port-au-Port — St. Barbe |
| 24. Québec                                  | 015 Compton                   | 015 Mégantic — Compton — Stanstead    |
| 24. Québec                                  | 024 Hochelaga                 | 024 Sainte-Marie                      |
| 24. Québec                                  | 041 Maisonneuve               | 041 Hochelaga — Maisonneuve           |
| 24. Québec                                  | 052 Pontiac                   | 052 Pontiac — Gatineau — Labelle      |
| 24. Québec                                  | 075 Westmount                 | 075 Saint-Henri — Westmount           |
| 35. Ontario                                 | 063 Prince Edward             | 063 Prince Edward — Hastings          |
| 59. British Columbia — Colombie-Britannique | 007 Fort Nelson — Peace River | 007 Prince George — Peace River       |

Users should also note that District 014 in British Columbia — Nanaimo — Alberni, should read Nanaimo — Alberni.

Where applicable, relevant parts of the Census questionnaire and instructions are reproduced in the Introduction to Volume 1 (Catalogue No. 92-800).

### DEFINITIONS

**Province:** Major political division of Canada. From a statistical point of view, it is a basic unit for which data are tabulated and cross-classified. There are ten provinces which are divided into federal electoral districts, census divisions, census subdivisions, etc. In census publications, provincial tables include the Yukon and Northwest Territories.

**Federal Electoral District (FED):** Any territorial unit entitled to return a member to serve in the House of Commons.

**Reference Map:** A map which identifies and locates the boundaries of geostatistical areas.

**Age:** Age refers to the number of completed years of age at last birthday, and is computed on the basis of the census questionnaire item on date of birth.

Ce bulletin présente pour les circonscriptions électorales fédérales (voir la définition ci-dessous), un résumé des données du recensement de 1976 le plus souvent utilisées. Il fait partie d'une série de bulletins semblables présentant des chiffres à divers niveaux géographiques; régions métropolitaines de recensement et agglomérations de recensement (n° 92-809 au catalogue), municipalités de 5,000 habitants et plus (n° 92-810 au catalogue), secteurs de recensement (nos 95-800 à 95-831 au catalogue) et secteurs provinciaux de recensement (nos 95-850, 852, 854 et 856 au catalogue).

Les données portent sur les caractéristiques démographiques et économiques (population active) des particuliers ainsi que sur les caractéristiques du logement, des ménages et des familles. Elles sont présentées pour les 282 circonscriptions électorales fédérales établies d'après l'Ordonnance de représentation de 1976 selon la Loi sur la révision des limites des circonscriptions électorales, SRC, 1970. Des explications concernant les variables utilisées dans ce bulletin figurent ci-dessous.

Les chiffres de population des recensements de 1976 et 1971 sont indiqués dans un autre bulletin (n° 92-801 au catalogue) pour les 264 circonscriptions électorales fédérales établies d'après l'Ordonnance de représentation de 1966.

Le Parlement peut, à l'occasion, changer le nom officiel des circonscriptions électorales fédérales. Le lecteur remarquera que les noms de huit circonscriptions paraissant à l'Index de la carte de référence ne coïncident pas avec ceux qui figurent dans les tableaux de ce bulletin puisqu'ils ont été changés depuis l'impression de la carte. Les voici:

L'utilisateur remarquera aussi que pour le district 014 de la Colombie-Britannique on doit lire Nanaimo — Alberni et non Nanimo — Alberni.

Au besoin, certaines parties du questionnaire du recensement et des instructions ont été insérées dans l'Introduction au volume 1 (n° 92-800 au catalogue).

### DÉFINITIONS

**Province:** Principale division politique du Canada. Du point de vue statistique, c'est une unité de base pour laquelle toutes les données sont totalisées et recoupées. Il y a dix provinces, divisées en circonscriptions électorales fédérales, en divisions de recensement, en subdivisions de recensement, etc. Dans les publications du recensement, les tableaux relatifs aux provinces comprennent le Yukon et les Territoires du Nord-Ouest.

**Circonscription électorale fédérale (CÉF):** Toute division territoriale éligant un député à la Chambre des communes.

**Carte de référence:** Carte qui délimite les unités géostatistiques.

**Âge:** L'âge représente le nombre d'années révolues au dernier anniversaire et il est calculé à partir de la date de naissance indiquée sur le questionnaire du recensement.

**DEFINITIONS — Continued**

**Marital Status:** Refers to the categories single (never married), married, widowed, separated and divorced. Note in particular that:

**Single (never married)** includes all persons under age 15;

**Married** includes persons living common-law;

**Separated** includes married persons who have been deserted or have parted because they no longer wish to live together but have not obtained a divorce; this category, therefore, includes separations whether legal or otherwise.

In most tables, the married and the separated categories are reported together under the heading "married".

**Mother Tongue:** The language first learned and still understood. Infants who have not yet learned to speak are considered to have as mother tongue the language most often spoken in the home.

**Dwelling:** Refers to a set of living quarters in which a person or group of persons resides or could reside.

**Private Dwelling:** Refers to a structurally separate set of living quarters with a private entrance from outside or from a common hallway or stairway inside the building (e.g., the entrance must not be through someone else's living quarters). The census classifies private dwellings into three major groups: OCCUPIED DWELLINGS, UNOCCUPIED DWELLINGS, and DWELLINGS OCCUPIED BY FOREIGN AND/OR TEMPORARY RESIDENTS.

**Occupied Private Dwelling:** Refers to a private dwelling in which a person or group of persons is permanently residing. Also included are private dwellings whose usual residents are temporarily absent on Census Day. Unless otherwise specified, all data in housing reports are for occupied private dwellings rather than unoccupied private dwellings or dwellings occupied by foreign and/or temporary residents.

**Structural Type:** Refers to the classification of private dwellings in terms of their physical structure. Five major groups result.

**SINGLE DETACHED** refers to:

**Single house:** A structure with one dwelling only, separated by open space from all other structures except its own garage or shed.

**SINGLE ATTACHED** refers to:

**Semi-detached or double house:** A dwelling joined to only one other dwelling, separated from it by a wall extending from ground to roof (e.g., one of two dwellings attached side by side), having no other dwellings either above or below and separated by open space from all other structures.

**Row house:** A dwelling unit in a row of three or more dwellings, sharing common walls extending from ground to roof and in which there are no other dwellings either above or below (e.g., town house, garden home, maisonnette, etc.).

**House attached to a non-residential structure:** A single house attached to a non-residential structure (such as a store, church, etc.), but separated from it by a wall extending from ground to roof (e.g., attached side by side).

**DÉFINITIONS — suite**

**État matrimonial:** Indique la situation conjugale, c'est-à-dire célibataire (jamais marié), marié, veuf, séparé et divorcé. Il convient de signaler que la catégorie

**célibataire (jamais marié)** comprend toutes les personnes âgées de moins de 15 ans;

**marié** comprend les personnes vivant en concubinage;

**séparé** comprend les personnes mariées qui ont été abandonnées ou qui sont séparées de leur conjoint parce qu'elles ne veulent plus vivre avec lui, mais qui n'ont pas obtenu le divorce; cette catégorie vise donc les personnes séparées légalement ou non.

Dans la plupart des tableaux, les personnes mariées et les personnes séparées figurent sous la même rubrique, c'est-à-dire "marié".

**Langue maternelle:** Première langue apprise et encore comprise. Dans le cas des enfants en bas âge, la langue maternelle est la langue la plus souvent parlée à la maison.

**Logement:** Ensemble de pièces d'habitation qu'une personne ou un groupe de personnes habitent ou pourraient habiter.

**Logement privé:** Ensemble structurellement distinct de pièces d'habitation ayant une entrée privée donnant sur l'extérieur ou sur un corridor ou un escalier commun à l'intérieur, c'est-à-dire que l'entrée doit donner accès au logement sans qu'on ait à passer par les pièces d'habitation de quelqu'un d'autre. Pour les fins du recensement, on a divisé les logements privés en trois grandes catégories: les LOGEMENTS OCCUPÉS, les LOGEMENTS VACANTS et les LOGEMENTS OCCUPÉS PAR DES RÉSIDENTS ÉTRANGERS ET (OU) TEMPORAIRES.

**Logement privé occupé:** Logement privé occupé de façon permanente par une personne ou un groupe de personnes. Sont également inclus dans cette catégorie les logements privés dont les résidents habituels sont temporairement absents le jour du recensement. Sauf indication contraire, toutes les données présentées dans les bulletins sur le logement se rapportent à des logements privés occupés et non pas à des logements privés vacants ou à des logements occupés par des résidents étrangers et (ou) temporaires.

**Type de construction:** Classement des logements privés selon le type de construction. Il y a cinq grandes catégories:

**LOGEMENT INDIVIDUEL NON ATTENANT:**

**Maison individuelle:** Construction ne contenant qu'un seul logement et qui n'est rattachée à aucune autre construction, si ce n'est à une dépendance, comme un garage ou un hangar.

**LOGEMENT INDIVIDUEL ATTENANT:**

**Maison jumelée ou maison double:** Deux logements côte à côte réunis par un mur commun s'élevant du sol au toit, c'est-à-dire sans autre logement au-dessus ni en dessous, et entourés d'espaces libres.

**Maison en rangée:** Logement dans une rangée de trois logements ou plus séparés les uns des autres par un mur commun s'élevant du sol au toit, sans autre logement ni au-dessus ni en dessous, par exemple, les town houses, les maisons-jardins et les maisonnettes.

**Maison attenante à une construction non résidentielle:** Maison individuelle attenante à une construction non résidentielle (un magasin, une église, etc.), mais qui en est séparée par un mur commun s'élevant du sol au toit (par exemple, côte à côte).

**DEFINITIONS — Continued****APARTMENT** refers to:

*Apartment or Multiple Dwelling:* A dwelling unit in a triplex, quadruplex or apartment building that is separated from other dwelling units by a horizontal division or by both horizontal and vertical divisions. Dwellings in duplexes or triplexes that are attached in rows are included here. Dwellings above or within a non-residential structure such as a school or a store and structurally separate dwellings in a converted house, if they number more than two, are also included in this category.

**DUPLEX** refers to:

*Duplex:* One of two dwellings, one on top of the other, separated by open space from all other structures. Included is any dwelling built as a single house but in which the basement or upper storey has been converted to form another separate dwelling.

**MOVABLE** refers to:

*Mobile home:* A movable dwelling designed and constructed to be transported (by road) on its own chassis to a site, and placed on a temporary foundation such as blocks, posts or a prepared pad. It should be capable of being moved to a new location on short notice.

*Other movable dwelling:* A dwelling (other than mobile homes) which is used as a permanent residence and is also capable of being moved on short notice. Examples are tents, motor homes, travel trailers, camper trailers, railroad cars and houseboats.

**Tenure:** Refers to whether an occupied private dwelling is owned or rented by the household head or any other member(s) of the household. A dwelling is classified as OWNED even though it may be mortgaged or in the process of being bought (e.g., closure has not yet been finalized). A dwelling is classified as RENTED if it is not owned by any member of the household, even if no rent is paid. A dwelling which is rented with an option to buy is considered to be rented until the option is taken up.

**Household:** Refers to a person or group of persons (other than foreign residents) who occupy a dwelling and do not have a usual place of residence elsewhere in Canada. It usually consists of a family group with or without lodgers, employees, etc. However, it may consist of two or more families sharing a dwelling, a group of unrelated persons, or one person living alone. Household members who are temporarily absent on Census Day (e.g., temporary residents elsewhere) are considered as part of their usual household. For census purposes, every person is a member of one and only one household.

Households are classified into three groups: (1) A PRIVATE household refers to persons (other than foreign residents) who occupy private dwellings and do not have a usual place of residence elsewhere in Canada. (2) A COLLECTIVE household consists of persons (other than foreign residents) who occupy collective dwellings and do not have a usual place of residence elsewhere in Canada. (3) A HOUSEHOLD OUTSIDE CANADA refers to military, diplomatic or other government personnel together with their dependents who reside outside Canada. Unless otherwise specified, all data in household reports are for private households only.

**Private Household:** Refers to a person or group of persons (other than foreign residents) who occupy a private dwelling and do not have a usual place of residence elsewhere in Canada. The number of private households equals the number of occupied private dwellings.

**DÉFINITIONS — suite****APPARTEMENT:**

*Appartement ou immeuble à logements multiples:* Logement situé dans un triplex, un quadruplex ou un immeuble d'appartements, qui est séparé des autres logements par une division horizontale ou par des divisions horizontales et verticales. Les logements situés dans des duplex ou des triplex en rangée sont compris dans cette catégorie. Les logements situés au-dessus ou à l'intérieur d'une construction non résidentielle (une école ou un magasin, par exemple) et les logements structurellement distincts situés dans une maison transformée en immeuble à logements multiples, s'il y en a plus de deux, entrent dans cette catégorie.

**DUPLEX:**

*Duplex:* Deux logements superposés et entourés d'espaces libres. Les logements construits comme maisons individuelles, mais dont le sous-sol ou l'étage supérieur a été transformé en logement distinct sont des duplex.

**LOGEMENT MOBILE:**

*Habitation mobile:* Logement mobile conçu et construit pour être transporté (sur la route) sur son propre châssis et placé sur une fondation temporaire (blocs, pieux ou emplacement aménagé, par exemple). Le logement doit pouvoir être déplacé sans grand délai.

*Autre logement mobile:* Logement (autre qu'une habitation mobile) qui sert de résidence permanente et qui peut également être déplacé sans grand délai (tente, caravane motorisée, roulotte, tente-roulotte, wagon, bateau, etc.).

**Mode d'occupation:** Indique si le chef de ménage ou tout autre membre du ménage est propriétaire ou locataire du logement privé occupé. Un logement est considéré comme POSSÉDÉ même s'il est hypothéqué ou en voie d'être acheté (par exemple, les formalités de vente ne sont pas encore terminées). Un logement est classé comme LOUÉ si aucun membre du ménage n'en est propriétaire, même si aucun loyer n'est versé. Un logement loué avec option d'achat est considéré comme occupé par un locataire jusqu'à ce que l'option soit levée.

**Ménage:** Personne ou groupe de personnes (autres que des résidents étrangers) occupant un même logement et n'ayant pas de lieu de résidence habituelle ailleurs au Canada. Il se compose ordinairement d'un groupe familial, avec ou sans chambreurs, employés, etc. Il peut aussi se composer de deux familles ou plus partageant le même logement, d'un groupe de personnes non apparentées ou d'une personne seule. Les membres d'un ménage qui sont temporairement absents le jour du recensement (par exemple, résidents temporaires ailleurs) sont considérés comme faisant partie de leur ménage habituel. Pour les fins du recensement, chaque personne est membre d'un seul et unique ménage.

Les ménages sont classés en trois catégories: (1) un ménage PRIVÉ, c'est-à-dire les personnes (autres que des résidents étrangers) qui occupent des logements privés et qui n'ont pas de lieu de résidence habituelle ailleurs au Canada; (2) un ménage COLLECTIF, c'est-à-dire les personnes (autres que des résidents étrangers) qui occupent des logements collectifs et qui n'ont pas de lieu de résidence habituelle ailleurs au Canada; (3) un MÉNAGE À L'EXTÉRIEUR DU CANADA, c'est-à-dire le personnel militaire, diplomatique et autres fonctionnaires, ainsi que les personnes qui sont à leur charge, qui demeurent à l'extérieur du Canada. Sauf indication contraire, toutes les données présentées sur les ménages se rapportent aux ménages privés uniquement.

**Ménage privé:** La ou les personnes (autres que des résidents étrangers) qui occupent un logement privé et qui n'ont pas de lieu de résidence habituelle ailleurs au Canada. Le nombre de ménages privés est égal au nombre de logements privés occupés.

## DEFINITIONS — Continued

**Census Family:** Consists of a husband and a wife (with or without children who have never married, regardless of age) or a lone parent, regardless of marital status, with one or more children (who have never married, regardless of age) living in the same dwelling. Persons living common-law are directed to report as now married on the census questionnaire. Such persons are therefore indistinguishable from those who are legally married and will appear as a husband-wife family in the census reports. Unless otherwise specified, all family data in family and housing reports are for census families.

**Family Structure:** Refers to the classification of census families into husband-wife families or lone parent families. HUSBAND-WIFE FAMILIES consist of a husband and a wife (with or without children), or persons who live common-law (with or without children). LONE PARENT FAMILIES consist of a parent, regardless of marital status, with one or more children living in the same dwelling (see CHILDREN).

**Family Status:** Refers to the classification of the population in private households into family and non-family persons. Family persons are further classified as: husband, wife, lone parent, spouse, child.

FAMILY PERSONS are members of a census family (e.g., persons living in the same dwelling who have a husband-wife or parent-child relationship). HUSBAND/WIFE refers to persons living in the same dwelling as their spouse. LONE PARENT refers to a mother or a father, with no spouse present, living in a dwelling with one or more never-married children. SPOUSE refers to either the husband or the wife of a husband-wife census family. CHILDREN refers to sons and daughters (including adopted and stepchildren) who have never married, regardless of age, and are living in the same dwelling as their parent(s). Sons and daughters who have ever married, regardless of age, are not considered as members of their parents' family, even though they are living in the same dwelling.

NON-FAMILY PERSONS are not members of a census family. They may be related to the household head (e.g., brother-in-law, cousin) or unrelated (e.g., lodger, employee).

**School Attendance:** School attendance is divided into two groups: (i) those persons attending school full-time at any time since the month of September preceding the census date of June 1, 1976, and (ii) those not attending full-time, which includes those attending part-time and those not attending at all. Attendance is considered to be full-time if the person is taking 75% or more of the normal course load in the grade or year in which he or she is registered. Attendance (either full- or part-time) could have been at any of the following types of educational institutions: elementary school, secondary school, university, institute of technology, community college, CEGEP, teachers' college, nursing school, private business school or college, public or private trade or vocational school, or school for the blind or deaf.

**Level of Schooling:** Level of schooling refers to the highest grade or year of elementary/secondary attended, or the highest year of post-secondary non-university or university completed by the person. Those currently enrolled reported their present grade or year. Those persons with both university and post-secondary non-university training are indicated accordingly in a separate category. University is defined as a degree-granting institution which grants a degree, certificate or diploma upon successful completion of a programme of studies. Post-secondary non-university training is obtained at a non-degree granting educational institution (e.g., community college, CEGEP, nursing school).

## DÉFINITIONS — suite

**Famille de recensement:** Époux et épouse avec ou sans enfants jamais mariés (peu importe leur âge) ou l'un ou l'autre des parents (peu importe l'état matrimonial) avec un ou plusieurs enfants jamais mariés (quel que soit leur âge) vivant dans le même logement. Les personnes qui vivent en concubinage doivent indiquer qu'elles sont actuellement mariées dans le questionnaire du recensement. Par conséquent, aucune distinction n'est faite entre ces personnes et les personnes mariées légalement; elles figurent comme époux et épouses dans les bulletins du recensement. Sauf indication contraire, toutes les données sur la famille présentées dans les bulletins sur le logement et la famille se rapportent aux familles de recensement.

**Structure de la famille:** Les familles de recensement sont classées en familles époux-épouse ou en familles monoparentales. Les FAMILLES ÉPOUX-ÉPOUSE se composent d'un mari et de sa femme (avec ou sans enfants), ou de personnes vivant en concubinage (avec ou sans enfants). Les FAMILLES MONOPARENTALES se composent d'un père ou d'une mère, peu importe leur état matrimonial, ayant un enfant ou plus vivant dans le même logement (voir ENFANTS).

**Situation des particuliers au sein des familles:** La population dans les ménages privés est classée en personnes faisant partie d'une famille et en personnes hors famille. Les personnes faisant partie d'une famille se classent en époux, épouse, parent seul, conjoint, enfant.

PERSONNES FAISANT PARTIE D'UNE FAMILLE: Membres d'une famille de recensement (par exemple, personnes vivant dans le même logement ayant des liens conjugaux ou des liens de filiation). L'ÉPOUX ou l'ÉPOUSE est une personne habitant le même logement que son conjoint. Un PARENT SEUL est un père ou une mère, sans conjoint présent, partageant un logement avec un ou plusieurs enfants jamais mariés. Le CONJOINT est soit l'époux, soit l'épouse dans une famille de recensement époux-épouse. Les ENFANTS sont les fils et les filles (y compris les enfants adoptés et les enfants d'un autre lit) qui ne se sont jamais mariés, peu importe leur âge, et qui vivent dans le même logement que leurs parents. Les fils et les filles qui se sont déjà mariés, peu importe leur âge, ne sont pas considérés comme des membres de la famille de leurs parents, même s'ils vivent dans le même logement.

Les PERSONNES HORS FAMILLE ne sont pas membres d'une famille de recensement. Elles peuvent être apparentées au chef de ménage (par exemple, beau-frère, cousin) ou non apparentées (par exemple, chambreur, employé).

**Fréquentation scolaire:** La fréquentation scolaire vise deux catégories de personnes: (i) les personnes qui suivent des cours à plein temps à un moment quelconque dans un établissement d'enseignement depuis le mois de septembre précédant la date du recensement (1<sup>er</sup> juin 1976) et (ii) les personnes qui ne fréquentent pas à plein temps un établissement d'enseignement, c'est-à-dire les personnes qui suivent des cours à temps partiel, et les personnes qui ne fréquentent pas d'établissement scolaire. La fréquentation scolaire est à plein temps lorsqu'une personne suit 75 % ou plus des cours qui se donnent normalement au niveau où elle est inscrite. La fréquentation (à plein temps ou à temps partiel) vise tous les types d'établissements d'enseignement, c'est-à-dire les écoles primaires, les écoles secondaires, les universités, les instituts techniques, les collèges communautaires, les CEGEP, les écoles normales, les écoles de sciences infirmières, les écoles commerciales privées, les établissements de formation professionnelle ou les écoles de métiers privées ou publiques, et les écoles pour aveugles ou pour sourds.

**Niveau de scolarité:** Le niveau de scolarité est la dernière année d'études primaires ou secondaires fréquentée ou la dernière année d'études postsecondaires non universitaires ou universitaires terminée par une personne. Les personnes qui fréquentent actuellement un établissement d'enseignement indiquent l'année où elles sont inscrites. Les personnes qui ont reçu une formation universitaire et une formation postsecondaire non universitaire sont classées dans une catégorie distincte. L'université est définie comme étant un établissement qui décerne des grades, des certificats ou des diplômes aux personnes qui ont terminé avec succès un programme d'études. La formation postsecondaire non universitaire est offerte dans des établissements d'enseignement qui ne décernent pas de grades, par exemple, les collèges communautaires, les CEGEP, les écoles de sciences infirmières.

**DEFINITIONS — Continued**

**Labour Force:** Refers to the non-inmate\* population, 15 years of age and over who, in the week prior to enumeration were (a) employed or (b) unemployed.

(a) The **Employed** consists of persons who, in the week prior to enumeration,

- (i) worked for pay or in their own business, farm or professional practice;
- (ii) helped without pay in a family business or farm; or
- (iii) had a job from which they were temporarily absent because of illness, vacation, labour dispute at their place of work, training course (provided the job was being held until trainee's return), bad weather, fire, personal reasons, etc.

(b) The **Unemployed** includes persons not classified as employed who, in the week prior to enumeration,

- (i) looked for work and were available to start work. As well, the Census Instruction Booklet asked persons who would have actively looked for work, but did not for certain specific reasons, to answer "yes" to the "looking" question. Those reasons were: temporary illness; indefinite layoff (exceeding 30 days) from a job to which they expected to be called back; or belief that no work was available in their community.
- (ii) were on temporary lay-off, not exceeding 30 days, from a job to which they expected to return (excluding full-time elementary and secondary school students); or
- (iii) had definite arrangements to start a new job at a future date (excluding full-time elementary and secondary school students).

**DÉFINITIONS — suite**

**Population active:** Comprend tous les non-pensionnaires d'institution\* de 15 ans et plus qui, au cours de la semaine précédant le recensement, étaient a) occupés ou b) en chômage.

a) La population active **occupée** se compose des personnes qui, au cours de la semaine précédant le recensement,

- (i) travaillaient contre rémunération ou dans leur propre entreprise ou leur propre exploitation agricole, ou exerçaient une profession à leur compte;
- (ii) travaillaient sans rémunération dans une entreprise familiale ou une exploitation agricole familiale; ou
- (iii) avaient un emploi dont ils étaient temporairement absents à cause d'une maladie, de vacances, d'un conflit du travail à leur lieu de travail, de cours de formation (à la condition que l'emploi soit gardé jusqu'au retour de l'employé), du mauvais temps, d'un incendie, pour des raisons personnelles, etc.

b) La population active en **chômage** comprend les personnes qui n'étaient pas considérées comme occupées et qui, la semaine précédant le recensement,

- (i) cherchaient du travail et étaient prêtes à travailler. De plus, selon une directive dans le Livret d'instructions, les personnes qui auraient cherché du travail, mais qui ne l'ont pas fait pour certaines raisons, devaient répondre "oui" à la question portant sur la recherche d'un travail. Pouvaient être évoquées les raisons suivantes: temporairement malade; congédiement pour une période indéterminée (plus de 30 jours) d'un emploi auquel elles s'attendaient à être rappelées; certitude de ne pouvoir trouver du travail dans leur localité.
- (ii) étaient en congédiement temporaire, pas plus de 30 jours, d'un emploi auquel elles s'attendaient à être rappelées (ne sont pas inclus les étudiants à plein temps des écoles primaires et secondaires); ou
- (iii) avaient pris des dispositions précises en vue de commencer un nouvel emploi à une date ultérieure (ne sont pas inclus les étudiants à plein temps des écoles primaires et secondaires).

---

\* An **INMATE** is a resident of a collective household for whom care or custody is being provided, such as persons residing in mental hospitals, homes for the aged, penitentiaries or other institutions.

---

\* Un **PENSIONNAIRE D'INSTITUTION** est un résident d'un logement collectif qui reçoit des soins ou qui est en détention, par exemple, les personnes résidant dans un hôpital pour malades mentaux, un foyer pour personnes âgées, un pénitencier ou un autre établissement.

## DEFINITIONS — Concluded

**Participation Rate:** The percentage the total labour force (employed plus unemployed) forms of the population 15 years of age and over in the area or category.

**Unemployment Rate:** The percentage the unemployed labour force forms of the total labour force in the category or area.

## HISTORICAL COMPARABILITY

Basically, the 'labour force' concept has not changed very much since the 1951 Census. Nevertheless, there have been differences in the questions asked to measure this concept and in 1976 two new questions were introduced — one on arrangements to start a new job and the other on availability for a job. As a result, the 1976 Census labour force figures in this report are not directly comparable with those of the previous censuses, except to indicate a general picture of trends over the period.

For data on a basis more consistent with the 1971 Census, reference should be made to the historical reports: **Labour Force Participation Rates by Age and Sex and by Marital Status and Sex, 1971 and 1976** (Catalogue No. 94-804) and **Labour Force Participation Rates by Age and Sex, 1971 and 1976** (Catalogue No. 94-832). Further information on the comparability of the data from the 1971 and 1976 Censuses is available in these reports and the **Introduction to Volume 5** (Catalogue No. 94-800).

The latter report also contains information on the comparability of the 1976 Census labour force data with those of the Labour Force Survey series produced by Statistics Canada.

## SAMPLING AND WEIGHTING

The information in this report was collected on either a 100% or 33 1/3% sample basis, as indicated in the table heading note. Sample data were weighted to population totals and as a result, for a given geographic area, may differ from that collected on a 100% basis. The latter figures, of course, represent the official counts. Information on sampling and weighting systems can be found in a study entitled "Quality of Data, 1976 Census, Series I: Sources of Error — The Effect of Sampling and Weighting on Data Quality".

## CONFIDENTIALITY AND RANDOM ROUNDING

The figures shown in this report have been subjected to a confidentiality procedure known as "random rounding" to prevent the possibility of associating small figures with any identifiable individual. Under this method, all figures including totals are randomly rounded (either up or down) to a multiple of "5". This technique provides strong protection against direct, residual or negative disclosures without adding significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports. Similarly, percentages, which are calculated on rounded figures, do not necessarily add to the total. Percentage distributions and rates for the most part are based on rounded data, while percentage changes and averages are based on unrounded data. Users are advised that each table is noted accordingly. Additional details on the random rounding technique may be obtained by writing Census Information Services (see back cover).

## DÉFINITIONS — fin

**Taux d'activité:** Le pourcentage de la population active totale (personnes occupées et personnes en chômage) par rapport à la population de 15 ans et plus dans un secteur ou une catégorie donné.

**Taux de chômage:** Le pourcentage de la population active en chômage par rapport à la population active totale dans un secteur ou une catégorie donné.

## COMPARABILITÉ CHRONOLOGIQUE

Fondamentalement, le concept de la population active n'a pas beaucoup changé depuis le recensement de 1951. Néanmoins, il y a eu des différences dans les questions servant à mesurer ce concept et en 1976, on a introduit deux nouvelles questions: la première sur les dispositions en vue de commencer un nouveau travail et l'autre sur la disponibilité en vue d'un emploi. Par conséquent, les chiffres de ce bulletin sur la population active ne peuvent être comparés directement avec ceux des recensements précédents, si ce n'est pour illustrer en gros les tendances qui sont ressorties au cours de la période.

Le lecteur qui désire des renseignements qui soient plus compatibles avec les chiffres du recensement de 1971, devra se reporter aux bulletins chronologiques **Taux d'activité selon l'âge et le sexe et selon l'état matrimonial et le sexe, 1971 et 1976** (n° 94-804 au catalogue) et **Taux d'activité selon l'âge et le sexe, 1971 et 1976** (n° 94-832 au catalogue). D'autres renseignements sur la comparabilité des données des recensements de 1971 et 1976 figurent dans ces bulletins et dans l'**Introduction au volume 5** (n° 94-800 au catalogue).

Ce dernier bulletin renferme aussi des renseignements sur la comparabilité des données sur la population active du recensement de 1976 avec celles de la série de l'Enquête sur la population active produite par Statistique Canada.

## ÉCHANTILLONNAGE ET PONDÉRATION

Les renseignements de la présente publication ont été recueillis soit à 100 %, soit à partir d'un échantillon de 33 1/3 % comme on le précise dans le titre du tableau. Les données fragmentaires ont été pondérées en fonction des chiffres totaux de la population et, par conséquent, pour une région géographique donnée, elles ne sont pas forcément les mêmes que celles recueillies à 100 %. Bien entendu, ce sont ces derniers chiffres qui sont officiels. Des renseignements concernant les systèmes d'échantillonnage et de pondération figurent dans une étude intitulée: "Qualité des données, recensement de 1976, Série I: Les effets de l'échantillonnage et de la pondération sur la qualité des données".

## CONFIDENTIALITÉ ET ARRONDISSEMENT ALÉATOIRE

Par souci de confidentialité, les chiffres présentés ici ont été soumis à une formule appelée "arrondissement aléatoire" qui interdit la possibilité d'associer des chiffres de faible importance à une personne reconnaissable. Grâce à cette méthode, tous les chiffres, y compris les totaux, sont arrondis de façon aléatoire (vers le haut ou vers le bas) à un multiple de "5". Cette technique assure une bonne protection contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De plus, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences. De même, la somme des pourcentages qui sont calculés à partir des chiffres arrondis ne correspond pas forcément au total. La plupart des répartitions en pourcentage et des taux sont basés sur des données arrondies, alors que les variations en pourcentage et les moyennes sont fondées sur des données non arrondies. Les utilisateurs sont priés de remarquer que chaque tableau est annoté en conséquence. On peut obtenir plus de détails sur l'arrondissement aléatoire en s'adressant à Information recensement (voir la couverture arrière).

## BASIC MEASURES OF DATA QUALITY

## Coverage Error

A coverage error occurs in the census whenever a person or a household is missed completely or counted more than once. Since overcoverage is fairly rare in relation to undercoverage, the net effect of such errors is to introduce a downward bias in census figures, so that the published census estimates tend to underestimate the actual population.

A special study was undertaken in relation to the 1976 Census to measure the extent of the bias due to undercoverage. This study estimated the over-all undercoverage rate to be of the order of 2% of the total population.

Evidence from studies of coverage errors in earlier censuses indicates that undercoverage is not evenly distributed throughout the population but tends to be higher in certain segments of the population, e.g., young male adults, recent immigrants.

Further details on this study may be obtained by contacting Census Information Services (see back cover).

## Response Rates

The table below presents the response rates obtained in the 1976 Census for the stated characteristics. A response rate is defined as the number of times the value of the characteristic was obtained divided by the number of times it should have been obtained.

These response rates are published in order to give an indication, for each characteristic, of the proportion of cases which required imputation for non-response.

## MESURES DE BASE DE LA QUALITÉ DES DONNÉES

## Erreur de couverture

Une erreur de couverture se glisse chaque fois qu'une personne ou un ménage sont omis ou comptés plus d'une fois. Étant donné que le surdénombrement est assez rare par rapport au sous-dénombrement, les erreurs de couverture introduisent un biais vers le bas dans les estimations du recensement de sorte que ces dernières ont tendance à sous-représenter la population réelle.

On a mené une étude spéciale concernant le recensement de 1976 afin de mesurer l'importance des biais attribuables au sous-dénombrement. On a estimé que le taux global du sous-dénombrement représentait 2 % de la population totale.

Des études d'erreurs de couverture effectuées à l'occasion de recensements antérieurs ont révélé que le taux de sous-dénombrement n'était pas également réparti dans toute la population, mais qu'il avait tendance à être plus élevé pour certains segments de la population, par exemple, chez les jeunes adultes de sexe masculin et les nouveaux immigrants.

On peut obtenir de plus amples renseignements sur cette étude en communiquant avec Information recensement (voir la couverture arrière).

## Taux de réponse

Le tableau ci-dessous présente les taux de réponse obtenus lors du recensement de 1976 relativement aux caractéristiques citées. Le taux de réponse est égal au quotient du nombre de fois que la valeur de la caractéristique a été obtenue par le nombre de fois qu'on aurait dû l'obtenir.

Ces taux de réponse sont publiés afin d'indiquer, pour chaque caractéristique, le pourcentage de cas qui ont dû être imputés en raison de la non-réponse.

## RESPONSE RATES FOR SELECTED CENSUS CHARACTERISTICS, 1976

## TAUX DE RÉPONSE POUR CERTAINES CARACTÉRISTIQUES DU RECENSEMENT, 1976

| Characteristics<br>—<br>Caractéristiques  | Response rate (%)<br>—<br>Taux de réponse (%) |
|---|---|
| Age — Âge.....  | 98.4  |
| Labour force activity — Activité.....   | 96.0  |
| Marital status — État matrimonial.....  | 98.0  |
| Mother tongue — Langue maternelle.....  | 98.1 <sup>1</sup>                             |
| School attendance — Fréquentation scolaire.....   | 94.8  |
| Highest grade of elementary or secondary schooling — Niveau de scolarité primaire ou secondaire.....                  | 95.0  |
| Years of post-secondary non-university education — Nombre d'années de formation postsecondaire non universitaire..... | 94.3  |
| Years of university level education — Nombre d'années d'études de niveau universitaire.....                           | 94.2  |
| Degree, certificate or diploma — Grade, certificat ou diplôme.....  | 94.2  |
| Sex — Sexe.....   | 98.6  |
| Structural type — Type de construction.....   | 99.7  |
| Tenure — Mode d'occupation.....   | 98.7  |

<sup>1</sup> As imputation for non-response was not carried out for mother tongue, the response rate for mother tongue is the percentage of persons in the given language categories excluding the "not stated" category. — Comme nous n'avons pas procédé à l'imputation dans le cas des non-réponses attribuables à la langue maternelle, le taux de réponse relatif à cette question est égal au pourcentage de personnes faisant partie des catégories données sur la langue à l'exception de la catégorie "non déclaré".

<sup>1</sup> These correspond to the reliability measures that were presented as root mean square errors or reliability estimates in the 1971 Census publications. — Ces estimations correspondent aux mesures de fiabilité présentées comme écarts quadratiques moyens ou estimations de fiabilité dans les publications du recensement de 1971.

figures. These include the effects of sampling (where applicable) as well as the random or non-systematic components of response and processing errors. The total standard errors, however, do not include allowances for systematic errors such as coverage errors, biases due to similar misinterpretations of concepts by many respondents, or systematic processing errors. These estimates of reliability are published to give an indication of the level of error only and are not meant for use in hypothesis testing or detailed analysis.

Users wishing to obtain TSE estimates for a given cell of data in any table in the Volume Series should follow these procedures:

1. Determine if the table is based on the complete census or on the one-third sample.
2. Determine the categories defining the cell. In some cases, this may be just a single category (e.g., age 25-29), while for a cell in a cross-classification involving several variables, there may be several categories (e.g., married males aged 25-29).

de 1976. L'erreur type totale englobe les effets de l'échantillonnage (s'il y a lieu) ainsi que les composantes aléatoires et non systématiques des erreurs de réponse et de dépouillement. Cependant, l'erreur type totale ne comprend pas les erreurs systématiques telles que les erreurs de couverture, les biais découlant d'une mauvaise compréhension des concepts par plusieurs recensés et les erreurs systématiques de dépouillement. Ces estimations de fiabilité sont présentées uniquement pour donner une indication du niveau d'erreur dans les chiffres du recensement et ne doivent pas être utilisées pour faire des tests d'hypothèses ou effectuer une analyse détaillée.

Les lecteurs qui veulent calculer des estimations de l'ETT pour une case donnée d'un tableau quelconque de cette série devront procéder de la façon suivante:

1. Déterminer si le tableau est fondé sur le recensement exhaustif ou sur l'échantillon partiel (un tiers).
2. Déterminer les catégories qui définissent la case. Dans certains cas, il peut n'y avoir qu'une seule catégorie (par exemple, les 25-29 ans), tandis que dans le cas des classements recoupés mettant en jeu plusieurs variables, il peut y en avoir plusieurs (par exemple, les hommes mariés âgés de 25 à 29 ans).

**BASIC MEASURES OF DATA QUALITY – Concluded**

3. Referring to the TSE table locate the cell-defining category which presents the highest value. Any column can be used for this comparison. For those categories where both 100% and sample TSE values are shown, use only the 100% rows for tables based on the complete census and only the sample rows for tables based on the one-third sample (see step 1).
4. Choose the column in the TSE table whose heading is closest to the value of the given cell in the census table. Approximations for intermediate values may be achieved by linear interpolation.
5. Read off the figure from the row (determined in step 3) and column (determined in step 4) of the TSE table.

When using these figures, the user can be reasonably certain that, for the enumerated population, the true value (discounting systematic and coverage errors) lies within plus or minus twice the total standard error (e.g., for a figure of 100 with a hypothetical TSE of 3, the range would be  $100 \pm 6$ ) and virtually certain that it lies within plus or minus three times the total standard error (e.g., for the same figure of 100 with a hypothetical TSE of 3, the range would be  $100 \pm 9$ ).

**SYMBOLS**

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.

**MESURES DE BASE DE LA QUALITÉ DES DONNÉES – fin**

3. En consultant le tableau des ETT, situer la catégorie qui a la valeur la plus élevée. N'importe quelle colonne peut servir à cette comparaison. Dans le cas des catégories pour lesquelles sont indiquées les valeurs de l'ETT à la fois pour le recensement exhaustif et pour l'échantillon, utiliser uniquement les lignes du recensement pour les tableaux fondés sur le recensement exhaustif, et uniquement les lignes de l'échantillon pour les tableaux fondés sur l'échantillon d'un tiers des ménages (voir l'étape 1).
4. Dans le tableau des ETT, choisir la colonne dont l'en-tête se rapproche le plus de celle de la case donnée dans le tableau du recensement. Les approximations des valeurs intermédiaires peuvent être effectuées par interpolation linéaire.
5. Lire la valeur correspondant à la ligne (déterminée à l'étape 3) et à la colonne (déterminée à l'étape 4) du tableau des ETT.

L'utilisateur de ces chiffres peut être raisonnablement certain que, pour la population recensée, la vraie valeur (en faisant abstraction des erreurs systématiques et de couverture) se situe dans un intervalle de plus ou moins deux fois l'erreur type totale (par exemple, pour le chiffre 100 et une ETT hypothétique de 3, l'intervalle serait de  $100 \pm 6$ ). L'utilisateur peut être presque certain que cette valeur se situe dans un intervalle de plus ou moins trois fois l'erreur type totale (par exemple, pour le chiffre 100 et une ETT hypothétique de 3, l'intervalle serait de  $100 \pm 9$ ).

**SIGNES CONVENTIONNELS**

- .. non disponible.
- ... n'ayant pas lieu de figurer.

## Publications of the 1976 Census of Canada

This bulletin is one of a series of volume reports of the 1976 Censuses of Population, Housing and Agriculture.

Most of the bulletins in the regular Volume Series are data-oriented. Other reports containing more methodological, interpretative and evaluative content, are also issued. These are as follows:<sup>1</sup>

- (a) 1976 Census Administrative Report
- (b) 1976 Census Quality of Data Series
- (c) 1976 Census Research Series
- (d) Introductory Reports to each of the regular Volume Series.

Also available on request is a series of Reference Lists developed largely for internal verification of basic geographical and population hierarchies, which could provide useful information to the outside user.

Users will note that the majority of census publications are colour-coded to identify with the four themes central to the presentation and to maintain comparability with the 1971 series, e.g., blue for Geographical and Demographic content, brown for Housing, Household and Family data, red for Economic Characteristics and gold for the series based on Agriculture.

These reports are listed in the *1976 Census Catalogue* which can be obtained free of charge from:

Publications Distribution,  
Room 1200, Statistics Canada,  
Ottawa, Ontario.  
K1A 0T6

To order census publications, send a cheque or money order made payable to the Receiver General for Canada, to the above address.

In addition to published documents, the Census of Canada can provide other products and services about census: data on microform (film or fiche), computer tapes, computer print-outs, user-specified tables, maps, geographic files, geographic lists, etc.

For information write:

Census Information Services,  
Statistics Canada,  
Ottawa, Ontario.  
K1A 0T7

or call (613) 996-5254.

**Inquiries** about census and other **Statistics Canada information** can also be directed to Statistics Canada Regional Offices located in: St. John's (Nfld.), Halifax, Montréal, Ottawa, Toronto, Winnipeg, Regina, Edmonton and Vancouver.

<sup>1</sup> It should be noted that these publications are generally released somewhat later than the data reports.

## Publications du recensement du Canada de 1976

Ce bulletin fait partie de la série des publications des recensements de 1976 de la population, du logement et de l'agriculture.

La plupart des bulletins de la série ordinaire des volumes présentent des données. On publie également d'autres bulletins dont le contenu vise plutôt la méthodologie, l'interprétation et l'évaluation. Ces bulletins sont les suivants<sup>1</sup>:

- a) Rapport administratif du recensement de 1976
- b) Série relative à la qualité des données du recensement de 1976
- c) Série du recensement de 1976 relative à la recherche
- d) Introductions à chacune des séries ordinaires des volumes.

Vous pouvez aussi vous procurer sur demande une série de Listes de référence, servant surtout à la vérification interne des catégories géographiques et démographiques de base, qui pourraient fournir des renseignements utiles aux utilisateurs à l'extérieur de Statistique Canada.

Les utilisateurs constateront que la plupart des publications du recensement sont classées par couleur, chaque couleur correspondant à l'un des quatre thèmes du recensement; cela permet d'assurer la comparabilité avec les séries de 1971; ainsi, le bleu est réservé aux publications de nature géographique et démographique, le brun, aux bulletins sur le logement, les ménages et les familles, le rouge, aux publications de nature économique et la couleur or, à la série relative à l'agriculture.

Ces bulletins figurent au *Catalogue du recensement de 1976* que vous pouvez obtenir gratuitement auprès de:

Distribution des publications  
Pièce 1200, Statistique Canada  
Ottawa (Ontario)  
K1A 0T6

Envoyez vos commandes de **publications du recensement** à cette même adresse en y joignant un chèque ou un mandat postal à l'ordre du Receveur général du Canada.

Outre les publications, le Recensement du Canada offre divers autres produits et services: données en microcopie (film ou fiche), bandes pour ordinateurs, états mécanographiés, totalisations spéciales, cartes, fichiers et listes géographiques, etc.

Pour obtenir des renseignements, écrivez à:

Information recensement  
Statistique Canada  
Ottawa (Ontario)  
K1A 0T7

ou téléphonez au numéro (613) 996-5254.

Toute demande de renseignement sur le recensement et les autres données de Statistique Canada peut également être transmise aux bureaux régionaux de Statistique Canada situés à St. John's (T.-N.), Halifax, Montréal, Ottawa, Toronto, Winnipeg, Regina, Edmonton et Vancouver.

<sup>1</sup> Il convient de remarquer que ces bulletins sont généralement publiés quelque temps après les bulletins présentant des données.
